he Baking Brain By Zaehay Kai

I spent a lifetime selling myself I cliebut like cooking and how hard it was, se of course, learning so ba waspoinsless. Is would Le even more destricult, and everything I made would leafailure. So, showers became real, and I avoided steoren atallcoss. It was a vengeful creasure, after all, and the so much as

lookedatif, uhuy, I'd/ burn down she kirchen, perhaps even the heave. Except... What it shat wasn't true? Whenther? Iwokeup one day minste convirren short The oven would scare me no linger. I would show uT could bake! Of course ...

Ire hard a few factors/ Biscuits That almost dient cookle course re derigh was 100 short, a banana cake I took out of the pan too sour to coolonavine rack which collapsed in con Uselfand became banana crumble. And each orine it heepend I was ready to quit.

But I was a hig gory how, and I would never Surrender! Sincesten Tre made biscuirs, carrotcales with Crossing, rousted reggies, and mere. And I consume so learn. Wickow baking Could recien me so mich about ble Urself?
